PURPOSES AND LEGAL BASES OF PROCESSING

We process your personal data in compliance with the EU General Data Protection Regulation (GDPR) and the German Federal Data Protection Act (BDSG) as well as industry-specific regulations (special laws) which have relevant data protection provisions.

a. To perform contractual obligations (Article 6(1)(b) GDPR)

If you apply to enter into a customer relationship Mercedes ServiceCard GmbH & Co. KG, we will process the information you provide in order to conclude the contract.

▪ Data processing within the context of a business relationship

If a contract is concluded with Mercedes ServiceCard GmbH & Co. KG, we will process your data for the performance of the contractual relationship. The personal data processed while doing this includes master data (e.g. company-/trading name, address), information about primary contact persons, as well as all data we require from you for billing purposes (e.g. VAT ID, bank account information) within the scope of the contractual relationship. This also includes processing that takes place associated with sending out cards/card data.

Without the processing of your personal data, it is not possible to enter into or perform the contractual relationship.

All processing of your personal data in the aforementioned processing procedures for pre-contractual or contractual purposes is based on Article 6(1)(b) GDPR.

b. Based on consent (Article 6(1)(a) GDPR)

If you have given us your consent to the processing of your personal data for specific purposes (see details below), the lawfulness of this processing is based on your consent. Consent given may be revoked at any time. This also applies to the

revocation of consent which may have been given to us before the GDPR came into force, i.e. before 25 May 2018. Please note that a revocation of consent has future effect only. Processing that took place before revocation is unaffected.

If you wish to exercise your right of revocation you can send your revocation either by email to info@MercedesServiceCard.com or by post.

c. Based on a legitimate interest of Mercedes ServiceCard GmbH & Co. KG (Article 6(1)(f) GDPR)

We also process your data beyond the actual performance of the contract in order to protect our legitimate interests and those of third parties. These processing operations are carried out on the basis of Article 6(1)(f) GDPR. These processing operations are:

▪ Using data in the event of a delay in payment

In the event of a delay in payment, we may assign claims to third parties or invoke the help of third parties in the collection process. All the required data is sent to the third party involved (e.g. debt collection company) to the extent necessary for the purpose of processing the debt collection.

Mercedes ServiceCard GmbH & Co. KG currently uses the following service provider to carry out debt collection:

coface Debitorenmanagement GmbH, Isaac-Fulda-Allee 1, 55124 Mainz.

In the event of a delay in payment, we may contact the responsible national subsidiary and/or responsible home dealer as part of the dunning and collection process and ask them for support in clearing up the issue with the payment delay. For this purpose, all the required data is sent to the responsible national subsidiary and/or the responsible home dealer.

If the dunning/collection process ends fruitlessly for MSC, customer data are put onto the Daimler Truck AG "blacklist". This means it will no longer be possible to use further services in the Daimler Truck AG service network using the Mercedes ServiceCard.

▪ Credit management

When issuing a credit note, we share all the relevant information about the redemption of this credit note with the company who issues it (e.g. Daimler. Truck AG). This is done to be able to inform you about offers during the credit note's period of validity.

▪ Assessment of economic risk (assessment of creditworthiness)

At the end of the initiation process and for monitoring an existing customer relationship- in particular when there is a delay in payment- an assessment of the payment default risk is carried out using a scientifically-proven mathematical procedure (**credit check**). The personal data required to perform the credit check (surname, first name, address, email address, telephone number, bank details) are sent to a credit agency. During this credit check, the credit agency determines a statistical probability of a payment default (**profiling**), which is manifested in a 'credit score'. The outcome will be reviewed by us in person by an employee of Mercedes ServiceCard GmbH & Co. KG and

assessed in terms of the potential impact on the business relationship. If, according to the score, the statistical probability of a payment default is too high, we may choose not to enter into a contractual relationship with you.

Mercedes ServiceCard GmbH & Co. KG currently uses the following credit agencies to carry out this credit check:

coface Rating GmbH, Isaac-Fulda-Allee 1, 55124 Mainz and/or SCHUFA Holding AG, Kormoranweg 5, 65201 Wiesbaden, Germany.

If you have any questions, please contact our customer service at info@MercedesServiceCard.com.

A fully-automated rating does not take place.

- **Business management measures and further development of our products and services**

Internal monitoring for managing the existing business relationship.
